Introduction

This course is a brief account of the history of the Christian church from the time of the Apostles to the present day. Many history books present information chronologically with little to no reference of the importance of God's Hand in all the events mentioned. When the history of His Church is mentioned it is often lost to the student just how important it is within the whole scope of human activity. The truth is that most Christians in our day are woefully ill informed about their spiritual heritage. In fact a refusal to study the history of Christ's Church is pure arrogance and is partly responsible for the sorry state of Christianity in our culture. It is hoped that this course will place the student within the class of Christians that know the comfort and encouragement of seeing God's Covenant care for His Church over the past 2,000 years.

How to Work Through The Course

The student will notice that the course has been divided into a **140 day schedule**. This will allow him to follow a **four-day school week** and still complete the course in a normal academic year. The **fifth day** of each week can be used to **catch up on assignments**, do **extra reading**, or simply **take the day off** from the course. If, however, a five-day school week is more desirable, the student is encouraged to pursue this course and will be rewarded by early completion of the material. Care has been taken to provide specific instructions for each day's work. Therefore, **all work is to be completed in the order presented in the daily schedule**. You will notice that the text is divided into seven sections, each covering material for a particular time period. You are required to read and study each section, **taking notes as you go**. Take care to look over the appropriate "Part" (or Unit) before you read the section. The information at the first of each part will guide you in the **material you will need to know for the test that will be done at the end of each Unit**. The questions in the "Assignments" section are your choices for the **two written assignments that will need to be done for each section**.

When you have read through a Part/Unit, taken notes, and studied, select the appropriate test from the Tree of Life website. See the Tree of Life Student Handbook for how to access and submit assignments/tests online.

Before you move to the next unit, select, from among the assignment choices for each section, two written assignments that you will complete for the unit. It is suggested that you do some outside reading on the topic to further supplement what you have read in the textbook. Follow the directions for the chosen assignment and write a complete answer. The assignments can also be found on the Tree of Life website, labeled with the appropriate Unit and Assignment number. All the options will be in the document, so just choose one. Pay attention to the normal conventions of writing (ex. sentence and paragraph development, documentation of references where necessary, spelling, grammar, etc.) **Also make sure your assignment is clearly labeled with your name, the course, the unit, and the date.**

Finally, you will be required to write **two essays** during this course. **One will be written after Test 4 and the other after Test 7.** For these you will be required to do extensive research on the topic and organize your information into proper format (title page, introduction, body, conclusion, footnotes, and bibliography). See the Tree of Life Student Handbook for instructions on completing essays.
